

Call for Speakers

2022 Environmental & Water Quality Conference

When: March 22, 2022 - OSHA 8-Hour Refresher & SDAEP Annual Meeting

March 23-24, 2022 - Conference

Where: Ramkota Hotel - Pierre, South Dakota

The Environmental and Water Quality Conference was started by the South Dakota Department of Environment and Natural Resources in 1989 to periodically inform environmental consultants working in the state of any updates to the regulations. While the conference still performs this function, it has expanded to include professional talks covering current environmental and natural resource topics. The Department of Agriculture and Natural Resources is excited to continue the conference as we work together to protect and preserve South Dakota's agriculture, environment, and natural resources.
